POWER STRIPS AND SURGE PROTECTORS

6 OUTLET SURGE PROTECTOR

Easy Wall Mounting:

Our surge protectors feature a unique design by having the mounting holes through the face of the surge protector. This allows for easy mounting to walls or other flat surfaces.

Surge Suppression:

Our surge suppressors are designed to protect valuable electronic devices from damaging power spikes, surges, and interference found in all electrical power sources. When this occurs, the power strip dissipates the incoming and outgoing voltage to a level that will not damage your equipment.

Specifications:

Electrical Rating: 125V, 60Hz, 15A, 1875W
Joules Rating: 750J
Max. Peak Pulse Current: 13500A
Max. Surge Clamping Voltage: 500V(L-N, L-G, N-G)
Max. Surge Pulse Voltage: 6000V
Response Time: Faster than 1 Nanosecond
EMI/RFI Noise Rejection: Up to 20dB from 150KHz to 30MHz
Overload Protection: 125V, 15A Circuit Breaker
